ICT RESOURCES FOR CAREER LEARNING (CMS) AND CAREER GUIDANCE

The Career Management Skills framework include methodological and practical guidelines for practitioners and managers to help them use the framework to design and develop new career service and activities.

The new set of technological tools improves the quality, the accessibility and the effectiveness of career learning.

The Seminar shows the technological tools and digital resources in six European Countries. The set of mapped tools is the baseline for Careers Around Me Catalogue which aim at fostering the development of new career services and activities.
